

RAYAN TERKI

Software Developer

Gatineau, QC, Canada | rayantrk06@gmail.com

GitHub: github.com/rayantr06 | LinkedIn: linkedin.com/in/rayan-terki

Portfolio: rayantr06.github.io/Portfolio/

SUMMARY

Software developer with an Ontario College Diploma in Computer Programming. Develops web applications, backend APIs and software tools using Python, C# and TypeScript. Contributes to collaborative full-stack and applied AI projects.

TECHNICAL SKILLS

Backend: Python, FastAPI, C#, ASP.NET Core

Frontend: TypeScript, JavaScript, React, Next.js, HTML, CSS

Data: SQL, PostgreSQL, SQLite, Entity Framework Core

Testing and AI: pytest, xUnit, Playwright, integration tests, NLP, speech processing, model integration

PROJECT EXPERIENCE

LIDAL Pulse | Python, FastAPI, React, TypeScript

- Connect backend services and web interfaces with multilingual NLP workflows and language-model integration in a collaborative marketing intelligence application.

Golf Tournament Management | C#, ASP.NET Core MVC, PostgreSQL

- Contributed interface improvements, database query fixes, integration tests and PostgreSQL deployment adjustments to a team application.

OuiAgent | Next.js, React, TypeScript

- Contribute agent discovery, booking and account workflows to a bilingual marketplace connecting clients with independent security agents.

Alerte IA | FastAPI, Next.js, TypeScript

- Develop collection and annotation tools, integrate models, and contribute to an operator interface for transcription and structured incident information in an emergency-call research prototype.

Safar | Travel and booking platform

- Contributed authentication routes and fixes to partner booking rendering across a collaborative platform with client, partner and admin interfaces.

Let-Data-DZ | HTML, CSS, JavaScript, Apps Script

- Develop browser audio collection and recording workflows with Apps Script integration for Google Drive and Sheets.

EDUCATION

Collège La Cité, Canada | 2024-2026

Ontario College Diploma, Computer Programming - earned

ESTIN, Béjaïa, Algeria | 2021-2023

Completed two years of the Integrated Preparatory Cycle in Mathematics and Computer Science.
